*A Report on*

**Green Campus Initiative**

(Jan 2021 to April 2022)

  
Faculty Coordinator

**Shruti N**  
Assistant Professor

  
Program Coordinator

**Dr Poornima B**  
Professor and Head

This was an attempt by 4th semester IS&E Department to implement the AICTE programme ideas in the villages to **improve quality education, awareness among people their mental and physical hygiene, to enhance Art, Culture and natural Heritage.**

Near the **Outskirts of Sirsi, a village called KANSUR** was visited by our team. We Visited the High School, Village house and some shops to create awareness among the people. **Shri Kalika Bhavani English Medium High School** i.e., the Secondary School of the village was the main point of junction.

Some healthy programmes were undertaken by the divided teams like –

- Distributing the books,
- Cleaning our surroundings (Swatch Bharat Mission),
- COVID-19 awareness talk,
- Computer and educational based seminars etc.

All the effort got Successful Results. We hope the people caught the awareness about the factors and phenomenon's.

### **Swachh Bharath in school campus, Shri Kalika Bhavani English Medium High School**

- Joining hands to clean our surroundings is the best work that has been displayed above regarding this programme.
- Hygiene is the most important aspect by letting know people that the work has been achieved in here.
- Saplings have been planted and taken care of.
- Decorative flower plants are revived.
- All the small canals have been revived throughout the high school campus.
- Visiting Village, Home and Shops we created immense awareness among the people
- By visiting Houses and Shops it was possible to make people aware of this activity.

- Aquatic plants serve a far more important purpose than just being aesthetically pleasing plants along your lakes and ponds.
- Instead, aquatic plants can enhance the overall health of your waterways and provide many positive effects to the wildlife found in your lakes.
- Below we list the many benefits that property owners experience when they have aquatic plants in their ponds.
  - ✓ Absorb excessive nutrients.
  - ✓ Stabilize lake and pond banks.
  - ✓ Provide a healthy habitat for fish and other wildlife.
  - ✓ Provide a food source for fish and wildlife.
- Therefore, we taught the students about the plants and its benefits.
- We showed them to maintain the plants by watering and supplying nutrients to them.
- Told about the values of nature and planted so many plants watered them and assigned individual students to take care of the plants.

To implement the AICTE programme ideas in the **villages to improve the quality and education, awareness among people with their physical hygiene, to enhance Art, Culture and Natural heritage.** Near the Outskirts of Davangere, a village called **Mitlakatte** was visited by **Information Science and Engineering Department students**, teaching and non-teaching staff members. Department visited the **Government School**, Village houses and some shops to create awareness among the people.

Some healthy programme were undertaken by the divided teams like –

- Wall paintings, Cleaning surroundings (Swatch Bharat Mission),

All the effort got successful results. We hope the people have got the awareness about the factors and phenomenon

Information Science & Engineering  
**GREEN CAMPUS INITIATIVES TAKEN IN THE INFORMATION SCIENCE & ENGINEERING DEPARTMENT**

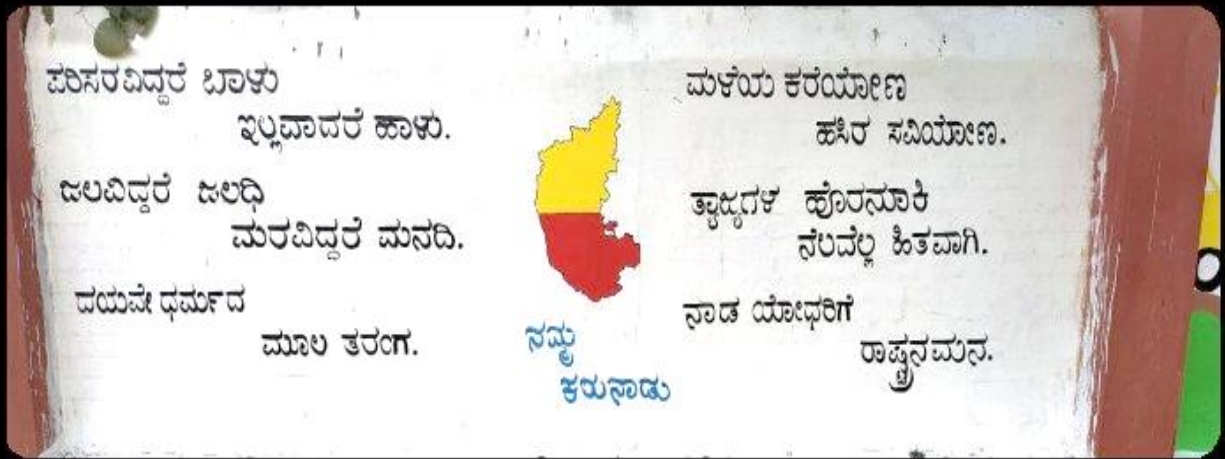

+

This Activity Program provided platform to expose their skills as well one such skill is painting on compound wall of the school. Students exhibit their painting skill by painting the compound wall of the school. They exhibited the message about how to save our environment, national flag, about girl education. The main painting attracted everyone is about the quote regarding “how to save our mother earth” and salute to our proud soldier.

The painting of our national flag is made all of us proud to be an Indian.

The other painting depicted pictures of **Global pollution, deforestation** and **Water crises** was beautifully done by our students. It gave them the message the consequences that could happen if we do not take care of our mother earth and to create awareness among people.

## Swachh Bharath Mission

The 'Swachh Bharath Mission' has catalyzed the importance and relevance of the India's journey to implement the cleanliness agenda in all walks of life with a motto of 'Swachh Bharath is Swasth Bharat'. For this AICTE has initiated the Clean Campus award to recognize the efforts of the institutes and its stakeholders for attaining the intended objectives.

## Sampling of Plants

Planting trees connects children with nature and shows them that their hard work and care can make a difference in the world. It inspires them to discover the natural world and nurture it. Along with guiding them on actions, that they can take to help protect and preserve the environment. Trees are vital part of the life, they give us oxygen, store carbon, stabilize the soil and also adds green beauty to the mother earth.

Cleaning the School Campus to create an awareness
