

Dean Academic's Message

BIET offers various undergraduate, post-graduate and doctoral programmes in Faculty of Engineering and Faculty of Management. The academics at BIET provide the students a strong background in fundamentals, an ability to translate it to real life problems, and capability to design, build and analyze different products, processes and systems.

We, the BIET, as a community focus in delivering high quality technical education to the students through a blend of theoretical and practical sessions, industrial visits, internships, skill development programmes and hands on experiences with technologies to transform the students into an ethically driven competent professionals to serve the society and the nation. High quality education is offered through highly skilled, well experienced, dedicated faculties having academic and industrial experiences.

We are in the process of implementing out-come based education throughout our curriculum and believe in continuous improvement of the academic endeavors. For this, we are continuously upgrading and adopting the best academic practices from time to time in delivering the highest level of satisfaction to our stakeholders.

Strong academic system facilitated by qualified faculty, supported by ICT and state-of-the-art infrastructure, makes the education process an enjoyable journey for students.

Best wishes to all.

Dr. Kanakuppi Sadashivappa

Dean Academic
