

Thank you for visiting R&D page of our website. Research activities at Bapuji Institute of Engineering and Technology (BIET) has grown significantly in the recent past. Financial support and the number of research publications, books and course materials authored by our team have doubled in the past four years. Institute faculty have received research grants from the various funding agencies like AICTE, DST, DBT, MoEF, CSIR, KSCST, SDC, VGST-Govt of Karnataka, and some reputed industries. So far, Karnataka State Council for Science and Technology has sanctioned more than 640 student projects since 1983. Our faculty provides consultancy services to individuals, industry and government organizations across the state. Collaborations with leading science and technology organizations, Universities and industry nurtured by the Institute provides the intensity required for meaningful research. R&D center is equipped with high end equipment's, facilities and computing platforms. Healthy research atmosphere of the campus attracts generation of concepts, ideas and technologies. To facilitate our research vision BIET provides research support and promises conducive environment to staff and Doctoral students. We invite prospective students and faculty to explore a research career at BIET Research center.

**Dr. A.G. Shankara Murthy**
