

Circular

30<sup>th</sup> June 2022

The Department of Biotechnology, EDC and Training & Placement cell, jointly are honored and pleased to organise talks with regarding job scenario and skill set - to flourish in Clinical research and development for Biotechnology students. Dr. Ajith, Director & Head, Scientific Writing, India; Global Clinical Operations, Development – R&D, Global Capability Centre, India; Mahadevapura, Bengaluru, 560037, India along with two of his colleagues has agreed to address our students on July 2<sup>nd</sup> Saturday, between 9Am to 12.30 Noon.

**Overview of the talk:**

Healthcare and pharmaceutical industries are considered to be evergreen sectors for career aspirants. The emergence of new diseases (Covid-19) and pathogens revealed the importance of clinical research and led to the rapid growth of this sector globally. The present scenario has propelled the Indian clinical research industry to a high momentum and the requirement for trained clinical research professionals has significantly increased. In this context, the program is an attempt to orient budding professionals towards the vibrant field of clinical research and its wide career opportunities. The talk sessions will aim to provide an overview on the process of drug development, the current job scenario, the skills required to grow and flourish in this industry and what a student can expect from this exciting career opportunity.

**Details of the talks:**

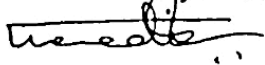

- **Clinical Research & Development: Career Opportunities in India (Dr. Ajith ): 40 min**  
(differentiate between research and development and also give an overview about various roles existing in India)
- **Initiating a clinical trial and getting it approved (Mr. Venkatesh & Dr.Gautham): 50 min**  
(idea is to give a glimpse of clinical trial protocol to clinical study set up and submission for drug approval)
- **Job scenario and skill set to flourish in clinical research and development (Panel discussion : Mr.Venkatesh, Dr. Gautham and Dr.Ajith): 60 min**  
Will plan to give different career ladder in the field of clinical development and skill set to develop

**COMPULSORY ATTENDENCE: All the semester students are strictly instructed to attend without fail.**
