"Saving our planet, lifting people out of poverty,  
advancing economic growth....

These are one and the same fight. We must connect the  
dots between climate change, water scarcity, energy shortages, global  
health, food security and women empowerment. Solutions to one problem  
must be solutions for all"

- Ban Ki-moon.

"Believing others is  
Easy But  
Believing in yourself  
that's the Real challenge"

Swami Vivekananda
